La Baule, February 16th, 2005

● CANCELLATION OF ENDURANCE AT LA BAULE ●

On the occasion of the General Assembly of the Société des Concours Hippiques (Society for Equestrian Competition) at La Baule, held on Saturday, 12 February last, it was decided to cancel, for this year, the Official International Endurance event (CEIO***) due to a shortfall in the necessary finances.

The Official International Jumping of France will run as normal, the weekend of 8 May, beginning Thursday, 5 through to Sunday 8 May next. A long weekend as it also encompasses the Thursday of Ascension.

The Official International Jumping of France (CSIO*****) is the only French stage of the Samsung Super League. It signals the start of the new outdoor season for the elite of the jumping world. This event is an absolute must for the preparation of the eight teams qualified for the Super League and whose major objective in 2005 is the European Championship in Italy, at the end of July (except for the American team not invited to take part in this continental championship, but who want "to do battle" in order to maintain their place in Super league).
